An aerial photograph of a traditional Chinese village. The village features numerous buildings with dark, tiled roofs and red walls, nestled among lush green trees. A river flows through the center of the village, and a traditional wooden bridge with a pavilion-like structure spans across it. The surrounding area is densely forested, and the overall scene depicts a peaceful, historic setting.

A wide, low dam with water cascading over it, surrounded by dense green forest. The water is white and frothy as it falls, creating a misty spray at the base. The dam itself is a series of concrete or stone blocks, and the water flows over them in a uniform sheet. The background is a thick forest of tall, green trees, and the water upstream is a deep, clear blue.
